

# Women Grow Together DONOR SOCIETY

Virtual Introductory Meeting | October 8, 2025 at 10:00AM

Calling all women interested in supporting the University Area community! We are introducing a women's donor society to our supporters and invite you to join us as we launch an association of passionate women who share in our mission to address the needs of the families who live in the University Area. By working together, we can strengthen child and family development, reduce crime, and stimulate economic growth through impactful, results-driven programs offered to our residents.

Please join us on Wednesday, October 8th at 10:00am for an introductory meeting of like-minded, philanthropic women who are interested in helping shape our first **Women Grow Together Donor Society** at University Area CDC. This will be a virtual gathering on Microsoft Teams - please rsvp below.

Together, we can cultivate lasting change—one community, one family, one woman at a time. We look forward to welcoming you into this vibrant new circle of changemakers and sharing how your support can help the University Area community thrive. Let's grow together!
