

JOIN US FOR A
VIRTUAL MEETING!

April 8, 2026
12:30 PM

Calling all women interested in supporting the University Area community! We recently introduced a women's donor society to our supporters, and invite you to join this association of passionate women who share in our mission to address the needs of University Area families. By working together, we can strengthen child and family development, reduce crime, and stimulate economic growth through impactful, results-driven programs offered to our residents.

Please join us on **Wednesday, April 8, 2026** from **12:30 – 1PM** for our next meeting of like-minded, philanthropic women in our Women Grow Together Donor Society at University Area CDC. We're thrilled to welcome **Yvette Segura**, President of Yvette Segura Consulting, as our special guest speaker. This will be a virtual gathering on Microsoft Teams – please rsvp below.

Together, we can cultivate lasting change – one community, one family, one woman at a time. We look forward to welcoming you into this vibrant new circle of changemakers and sharing how your support can help the University Area Community thrive. *Let's grow together!*
